Washington, D.C. 20036

September 2013

**About IHS ([www.ihs.com](http://www.ihs.com))**

IHS (NYSE: IHS) is the leading source of information, insight and analytics in critical areas that shape today's business landscape. Businesses and governments in more than 165 countries around the globe rely on the comprehensive content, expert independent analysis and flexible delivery methods of IHS to make high-impact decisions and develop strategies with speed and confidence. IHS has been in business since 1959 and became a publicly traded company on the New York Stock Exchange in 2005. Headquartered in Englewood, Colorado, USA, IHS is committed to sustainable, profitable growth and employs approximately 8,000 people in 31 countries around the world.

## Project Directors

- John W. Larson, Vice President, Economics and Public Sector Consulting
- Richard Fullenbaum, Vice President, Economics and Public Sector Consulting

## Project Team

- Tabitha M. Bailey, Director, Economics and Public Sector Consulting
- Mohsen Bonakdarpour, Managing Director, Economics and Public Sector Consulting
- James Fallon, Director, Downstream Consulting
- Russell Heinen, Senior Director, Chemical Research
- Bob Ineson, Senior Director, Energy Research
- Andrew Slaughter, Vice President, Energy Insight
- Mark Wegenka, Managing Director, Chemical Consulting

## Key Contributors

- Patty DiOrio, Senior Research Manager; Coal, Gas, Power & Renewables Research
- Bob Flanagan, Director, Economics and Public Sector Consulting
- Mark Griffith, Research Director; Coal, Gas, Power & Renewables Research
- Patrick Thomson, Senior Consultant, Economics and Public Sector Consulting

## Acknowledgments

We extend our appreciation to our internal Advisory Board, which consists of IHS Vice Chairman Daniel Yergin, IHS Senior Vice President James Rosenfield, and IHS Chief Economist Nariman Behraves. They offered critical insight, guidance and support in reviewing the methodologies and findings from this study.

We would also like to thank the subject matter experts, technical experts, industry experts and analysts who also contributed to this study: Sam Andrus, John Anton, Miguel Goncalves, Daniel Lichtenstein, Kenneth Kremar, Charlie McCarren, Mike Montgomery, John Mothersole, Rajeevee Panditharatna, Stewart Ramsey, Paul Robinson, Mihaela Solcan, and Tom Runiewicz.

This report offers an independent assessment of the importance of unconventional oil and gas to the US economy. This research was supported by the American Chemistry Council, America's Natural Gas Alliance, the American Petroleum Institute, the Fertilizer Institute, the US Chamber of Commerce – Institute for 21<sup>st</sup> Century Energy, the National Association of Manufacturers, the Natural Gas Supply Association, Rio Tinto, and the Society of the Plastics Industry. IHS is exclusively responsible for this report and all of the analysis and content contained herein. The analysis and metrics developed during the course of this research represent the independent views of IHS and are intended to contribute to the dialogue on the role of the unconventional oil and gas production in promoting employment, economic growth, and energy security.

**Table of Contents**

Appendix D: Economic Contribution Assessment – Detailed Tables ..... 1  
    Employment Contribution ..... 2  
    Value Added Contribution ..... 9  
    Labor Income Contribution ..... 16  
    Government Revenue ..... 23

## Appendix D: Economic Contribution Assessment – Detailed Tables

Appendix D contains tables that expand upon the summary tables presented in the body of the report to include a complete set of forecast years – 2012 through 2025 – and each of the components of the full unconventional value chain – upstream energy, midstream and downstream energy, and energy-related chemicals.

Results for the following four concepts are presented:

- 1) Employment Contribution
- 2) Value Added Contribution
- 3) Labor Income Contribution
- 4) Government Revenue

The three contribution concepts (employment, value added, and labor income) are first presented by each of the four Census regions – South, Midwest, Northeast and West – by each of the types of activity – upstream energy activity, midstream and downstream energy activity, and energy-related chemicals activity. Next, for the United States and each of the four Census regions, tables are presented for each of the types of activity – upstream energy activity, midstream and downstream energy activity, and energy-related chemicals activity – by contribution type (direct, indirect, and induced).

For the United States and each of the four Census regions, government revenue is presented for each of the types of activity – upstream energy activity, midstream and downstream energy activity, and energy-related chemicals activity – for each of the forecast years.

As noted, each of the contributions is presented for the United States and each of the four Census regions – South, Midwest, Northeast, and West. The Census regions are defined as follows:

United States Census Regions			
Northeast Census Region	Midwest Census Region	South Census Region	West Census Region
Connecticut	Illinois	Delaware	Arizona
Maine	Indiana	District of Columbia	Colorado
Massachusetts	Michigan	Florida	Idaho
New Hampshire	Ohio	Georgia	Montana
Rhode Island	Wisconsin	Maryland	Nevada
Vermont	Iowa	North Carolina	New Mexico
New Jersey	Kansas	South Carolina	Utah
New York	Minnesota	Virginia	Wyoming
Pennsylvania	Missouri	West Virginia	Alaska
	Nebraska	Alabama	California
	North Dakota	Kentucky	Hawaii
	South Dakota	Mississippi	Oregon
		Tennessee	Washington
		Arkansas	
		Louisiana	
		Oklahoma	
		Texas

Lease Payments to Private Landowners	32	35	39	43	46	48	52	56	60	64	67	69	73	78	761

NOTES: Numbers may not sum due to rounding.

\*The unconventional activity value chain represents the sum of upstream energy, midstream and downstream energy, and energy-related chemicals activity.

\*\*Federal royalty payments, federal bonus payments, and lease payments to private landowners only apply to upstream energy activity where land is leased from private households for drilling.
